

**WEBINAR****COLLABORATING IN CRISIS:
ACADEMIC-GOVERNMENTAL
PARTNERSHIPS DURING COVID-19****U.S. (GMT-8)**WED, 9 DEC,
5.00PM**ASIA (GMT+8)**THUR, 10 DEC,
9.00AM

ORGANISED BY:

Saw Swee Hock
School of Public Health

IN COLLABORATION WITH:

**UCLA**

The knowledge created within universities and by academic experts can be used to inform policy and government-level decisions; at the same time, the practical experience of leaders and decision-makers can provide insights and case studies for researchers. The relationship between academic departments of Public Health and government has taken a particular significance in many countries during the COVID-19 crisis, and has been managed in different ways depending on the local context and the local evolution of the pandemic.

This webinar will discuss similarities and differences in approach and experience advising policy-makers during COVID-19; peculiarities of this unprecedented crisis; and lessons learnt that could inform academic-governmental partnerships in future occasions, including but not exclusively in emergency situations.

Date: 10 December 2020, Thursday**Time:** 9.00am – 11.00am (GMT+8) | [Time Zone Converter](#)
