WHY SUMMER ONLINE AT KING'S?

ACADEMIC QUALITY

Studying online with King's Summer Programmes provides students with the same high-quality, intensive learning experience that is offered by our on-campus programmes, with the same experienced team of tutors from the College's faculties delivering interactive and engaging lectures and seminars, informed by cutting-edge research.

King's is a civic university in the heart of London, with deep connections to important local and national institutions, from hospital trusts to multinational corporations, from world-famous museums to key parts of the British judiciary. Studying with King's, from wherever in the world, allows students to participate in the industrial, commercial and cultural life of the UK capital, and to become part of the latest discussions and research in their chosen field.

"The online experience in the summer school at King's was different but it went perfect. The course helped me to grow and learn more about my course and important skills associated with it. These weeks were a memorable experience. Thank you."

Kaviesh, Qatar, Class of 2020
